often copied, never reached

The surface of the Speeder™ cap enables a maximum impact and control in each hit. This results in outstanding accuracy and handling. Speeder™ are made in Germany.

The Speeder™ dress is made of tear resistant, fluorescent Swiss made plastic.

The wave shaped dress of the Speeder™ enables its fast rotation when hit. This rotation improves the precision and accuracy of the flight.

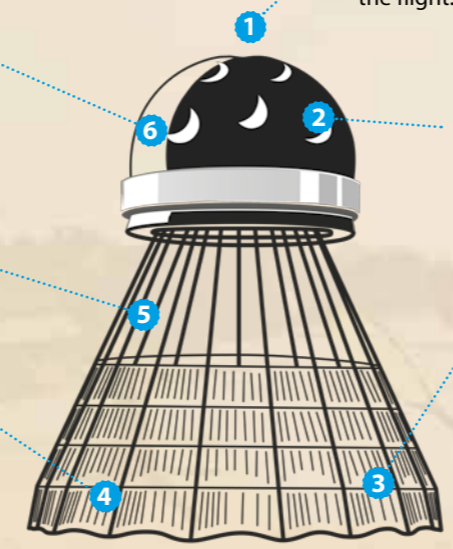

The hole in the cap increases the precision and accuracy of the flight.

The dimples in the cap reduce the drag when flying.

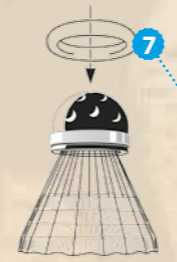

The bevelled edge of the dress gives the Speeder™ an aerodynamic finish.

Made in Germany
Patent No. WO 2009/027359 

The winding adds extra weight to the Speeder™ to allow play in windy conditions.

OFFICIAL TOURNAMENT SPEEDER™ OF THE
